

SUNQUEST 39, 1990

A well-maintained Sunquest 39, perfectly suited for cruising and longer voyages thanks to its spacious and comfortable living areas. This particular vessel has been carefully maintained with great attention and care by professionals from the marine service industry for their own use, meaning the new owner will not have to worry about deferred maintenance. During the past four years, the boat has received numerous upgrades, including a new depth sounder, solar panels, stern thruster, and diesel heater. Winter storage arrangements can also be flexibly continued for the new owner if desired. The boat is fully ready for summer adventures at sea.

For a 39-foot boat, the accommodation spaces are generous and practical. The galley is well-equipped, and the two cabins comfortably accommodate either two couples or a family of four. In good weather, time can also be enjoyed on the aft deck or in the flybridge helm station.

Location: Turku, Finland

Measurements:

- Length: 11.6 m
- Beam: 4.21 m
- Draft: 1.0 m
- Displacement: 9,000 kg
