

SUNSEEKER 57 PREDATOR -16

The 2016 Sunseeker Predator 57 perfectly combines striking design, exhilarating performance, and luxurious comfort. Presented in outstanding condition, she comes directly from her original owner and has only been used in the northern Baltic Sea, where lower UV exposure and reduced salinity help preserve the yacht exceptionally well. She has been professionally serviced throughout her life by Volvo Penta and the official Sunseeker dealer in Finland, ensuring impeccable technical standards. During the winters, the yacht has always been stored in a heated indoor facility, further protecting her condition.

This particular yacht is extremely well equipped and specified with a comprehensive Mediterranean specification, offering excellent comfort for warm-climate cruising as well as northern waters. Her spacious cockpit, large sunpads, and beautifully appointed interior provide the perfect setting for both entertaining and extended stays on board. A superb example of British yacht craftsmanship, ready for her next owner to step aboard and enjoy immediately.
